

Gibraltar Veterinary Hospital Lodging & Grooming Health Requirements

The Gibraltar Veterinary Team takes pride in offering a comfortable, caring environment for your pet while boarding and getting groomed. GVH also emphasizes the importance of safety during these visits.

In order to help keep your pet safe during his/her stay at Gibraltar, our veterinarians ask that all animals be updated on the wellness requirements listed below. This will help to prevent the spread of disease to your pet and for the benefit of other animals as well.

These vaccines and fecal exam are *required* for boarding and grooming. If you have concerns or questions about your pet's immunization and health history, please contact Gibraltar. A trained team member will be able to assist you.
